Pro9431DP+ Envelope Print System Specifications

Target new markets and grow your business with colour production envelope printing.

Introducing Pro9431DP+ Envelope Print System

- Broaden your services: expand short-run offerings;
- offer variable data printing in high-definition colour
- New design: built "from the ground up"—simplifies job setup, delivers new levels of production reliability
- Incredibly sharp text; rich, saturated press-like colours
- Broadest range of envelope sizes (through Feeder):
- 64mm x 89mm to 330mm x 382mm
- Broadest range of media sizes (through Printer):
- 64mm x 89mm cards to 1320mm banners
- Straight-through print path handles envelopes and ultra-heavy card stocks/postcards (up to 360 gsm) with ease

Printer-supported media

- Straight-through paper path supports envelopes, magnetic media, polyester, transparent film, and heavier stock (up to 360 gsm)
- 64mm x 89mm to 1320mm banners

Improved window envelope support

- Raised and angled envelope stack ensures smooth separation of typically challenging media

Short-run production savings

- Pro9431DP+ Printers' drum life can exceed 100,000 DL envelopes (based on print runs of 50 or more continuous envelopes), dramatically lowering CPP

Pro9431DP+ System Highlights:

Envelope sizes supported through Feeder

- Standard sizes: DL, C6, C5, C4, B6, B5, B4
- Custom sizes: Widths from 64mm to 330mm; Lengths from 64mm to 330mm, Lengths from 89mm to 382mm

Terms and conditions apply.

Press quality without the mess. Fast digital turnaround. And no setup costs.

Customer requests for short-run envelope production (runs of 5,000 or less) used to be a headache for print shops large and small: not economical for traditional offset printers, too much trouble even for small digital print shops. Until now.

Press quality that's easy – Pro9431DP+ model enables you to print short runs in less time than it takes to produce printing plates and ink up a press. Print up to 500 DL envelopes in under 12 minutes¹— with output that rivals traditional offset printing presses.

¹ Published performance results based on laboratory testing. Individual results may vary.

Print for Profit – OKI's Pro9431DP+ model lets you extend your in-house colour printing capabilities from the expected to the extraordinary. It's a new breed of print devices, perfect for short runs and, with a duty cycle rated at up to 300,000 pages per month, rugged enough for longer runs.

With their ease of use and low total cost of ownership, these affordable envelope printing systems enable you to produce premium printed products, offer new services, and grow your business and your profits.

What are you looking for to grow your business?

Affordable short runs (under 5,000 pieces) of customized envelopes, with fast turn-around times

Variable data printing (VDP) on envelopes, letters, postcards, etc. for targeted mailing campaigns

Flexibility for customization, ability to make last minute design changes, with minimal setup

Here's what you get with Pro9431DP+ Systems:

Cost-effective means to produce short runs with little overhead or job start-up costs, and full control over timing

Quickly go from design (in-house or client-provided) to production, no setup required

Key features

A4	✓
Colour/Mono	✓
